

Bags & Can Liners

TruBio Can Liners

Right fit

Reuse

Reduce

Recycle

Better Products for a Better Future

TruBio Series bags are our more eco-friendly liners designed to fit and stretch among the four most common receptacle sizes. Save time, money, and be more socially responsible, by buying only what you need and not spending extra on what you don't.

Right fit

All you need to know is **GALLON SIZE** when selecting the right liners with TruBio series.

Correct Length

Proper Overhang

Eco-Friendly Option

Our TruBio can liners use ECOgrade, a member of a new sustainable material family that can replace a portion of common plastic to make can liners that function like plastic are also more sustainable, have a lower carbon footprint, can be completely recycled, and have safer disposal options.

Benefits of ECOgrade

Start with:

Mineral-based resin ▶ Reduces petroleum plastic ▶ Lower GHG components

Work with:

High-quality, durable, economical can liners

End with:

Degradable ▶ Recyclable ▶ Cleaner disposal options

Power and Benefits of EcoGrade:

More sustainable vs conventional plastic (due to composition)
It contains over **90%** renewable (sustainable) components, whereas conventional plastic is made entirely of nonrenewable, petroleum-derived components

42%

Create less greenhouse gases (based on replacing petroleum plastic)
50% ECOgrade and 50% HDPE can reduce greenhouse gas by approximately **42%**

Photodegradable after use

Complete degradation after 240 days

90%

Can be recycled after use with sustainable materials

Approximately **90%** of EcoGrade is sustainable materials, including calcium carbonate, starch, processed sugarcane hulls, beeswax, water, and a carrier polymer

TruBio Liners

Revive Supplies is proud to introduce a series of biodegradable can liners to satisfy the environmental needs of our customers. In a world filled with waste and byproduct of human consumption, we believe reducing the negative footprint of our products on the environment by offering eco-friendly bags, is simply the right thing to do. Please see our flier for more details.

Blue Recycled Liners

ITEM NUMBER		SIZE	BAG GAUGE	CASE COUNT	SKID COUNT
DG404816RB	Blue HD	40 x 48	16 micron	250	56
DG4048XHVRB	Blue LD	40 x 48	1.2 mil	100	70

Note:
28/cl case minimum per size.
Meets standards outlined in ASTM D5511 and D5526.

TRUFIT series

Taking the guesswork out of can liner sizes

TruFit Series bags are designed to fit and stretch among the four most common receptacle sizes. Save time and money buying only what you need and not spending extra on unneeded plastic. Our liners are offered in a variety of resins LLDPE, HDPE and REPRO options - all high-quality plastic with a slip-free fit.

All you need to know is gallon size when selecting the right liners with TRUFIT SERIES:

= **Correct Length** = **Proper Overhand** = **Less Waste**

COLORS

Natural
Clear
Black

LLDPE

Great for heavy duty
and sharp material

HDPE

Great for high volumes
(paper, linens, and
office materials)

REPRO

Performs like LLDPE

TRUFIT SIZING:

23 Gallon Container

- TruFit Series Size: 29" x 44"
- **Competitors:** 33" x 39" (13% wasted)
- 40" x 46" (45% wasted)
- 38" x 58" (74% wasted)

32 Gallon Container

- TruFit Series Size: 33" x 44"
- **Competitors:** 40" x 46" (26% wasted)
- 38" x 58" (50% wasted)

44 Gallon Container

- TruFit Series Size: 37" x 50"
- **Competitors:** 38" x 58" (18% wasted)

55 Gallon Container

- TruFit Series Size: 41" x 54"

NEW! 65 Gallon Container

- TruFit Series Size: 50" x 44"

PRODUCT FEATURES:

- No more wasted plastic
- No more paying for what you don't need
- Line receptacles more efficiently and more cost effectively
- Packed on coreless rolls for easy dispensing

Manufactured of high-quality polyethylene can liners and plastic bags

TRUFIT series

TruFit Series

TruFit Series bags are designed to fit and strength among the four most common receptacle sizes. Save time and money buying only what you need and not spending extra on unneeded plastic. Our liners are offered in a variety of resins: LLDPE, HDPE, and REPRO options - all high-quality plastic with a slip-free fit.

Our Red Infectious Waste bags are printed with a warning message in English and Spanish. Printing is in black ink, one side, random repeat. All bags are supplied with star seal bottoms and are packed in rugged, white corrugated cartons.

Why Linear Low Density?

- Great for multiple applications with sharp or jagged objects
- Whether used in an office, home or a manufacturing plant, we have a variety of sizes and thicknesses for any application

Premium LLD

Product Features

- Made with prime resins
- Superior tear and puncture resistance
- Leak-proof star seal
- Packed on coreless rolls or individually folded
- Ideal for multiple applications where clear bags are needed
- Available in clear, black, and white

*Skid count subject to change based on shipping requirements

Add "R" in front of the item number: Example RPGB-2431

Why Repro?

- Significantly cheaper than a virgin linear low density trash bags
- Strong and durable
- Popular anywhere sharp objects are being thrown away

Minimum 65% pre-consumer recycled LLDPE resin content in our 2 mil, 2 mil eq, and 1.5 mil.

25% pre-consumer recycled LLDPE resin content in our 1.5 mil eq and 1 mil

Recycled T Series

Product Features

- Earth-friendly & certified for Recycled Content
- Reduced nominal gauge without sacrificing bag performance
- Superior strength and puncture resistance
- Packed on coreless rolls or individually folded
- Star seal provides extra durability

Minimum 65% pre-consumer recycled LLDPE resin content in our XX=Heavy and X-Heavy.

Minimum 25% pre-consumer recycled LLDPE resin content in our Heavy.

Premium HDPE Natural

Product Features

- Premium HDPE resins
- Strong HDPE film offers significant source reduction
- Packed on coreless rolls and in plain white boxes
- Excellent odor and moisture barrier
- Star seal provides extra durability
- Clear color ideal for foodservice applications

Premium HDPE Black

Product Features

- Made with a blend of Prime and Recycled resins
- Earth-friendly & significant source reduction vs. LLD
- Packed on coreless rolls
- Packed in brown "earth-friendly" boxes
- Excellent odor and moisture barrier
- Black film to hide contents

Black HDPE are cheaper than clear high density bags because they use a blend of virgin and recycled resin. They have a true gauge and offer superior strength for various applications.

TruFit Series

Product Features

- Premium HDPE resins
- Strong HDPE film offers significant source reduction
- Packed on coreless rolls and in plain white boxes
- Excellent odor and moisture barrier
- Star seal provides extra durability
- Clear color ideal for foodservice applications

Why Nominal High Density?

- Reduces landfill waste by over 10%
- Industry standard tolerances on gauge and size to compete with imports
- Series is 10% less of the gauge
- Quality raw materials and manufacturing process ensures reliability

Custom Products

Pallet Covers & Gaylord

Liners: These products can be manufactured out of Black Repro or Prime LLD resin.

Box Liners: Liners are made from linear low and high density resins, and can be used in industrial, food processing, and retail applications.

Other Products: These include drum liners, ASBESTOS bags, tubing and sheeting, dough tubing, and more.

Materials: LLDPE, Hexene, HDPE, Blends, Additives Recycled/Pre-Consumer, Tints & Colors

*All Custom Products are made to order and minimum quantities apply.
